

Position:	4th Class Power Engineer/Maintenance
Company	Delta Pacific Seafoods
Location:	Delta, BC
Category:	Food Manufacturing / Production
Job Type:	Full Time – Permanent
Shift Schedule:	8 hour rotating shifts during the training period. <ul style="list-style-type: none">○ Day Shift / 7:00am to 3:30pm.○ Afternoon Shift / 3:30pm to end of production.○ 12-hour shift on a rotating schedule (4 days on / 4 days off) after the training period.

Delta Pacific Seafoods is the largest fresh, frozen, and value-added seafood operation in BC specializing in high-quality custom seafood processing, value-added and cold storage services. The diversity of our operations offers many challenging opportunities for learning and development.

We have an immediate opening for a 4th Class Power Engineer to join our growing Maintenance Team. Reporting to the Maintenance Manager & Chief Engineer, the Shift Engineer plays a key role in ensuring our production facility is able to run at optimal production levels, with minimal downtime.

Job Duties and Responsibilities

- Operate and maintain the ammonia refrigeration system (compressors, tunnel & blast freezers, cold storage, chillers) within code requirement.
- Operate and maintain high pressure steam boiler.
- Monitor and respond to plant alarms.
- Perform routine & preventative maintenance tasks as required.
- Update maintenance logs and records.
- Complete work orders as assigned by Maintenance Manager and/or Senior Management/ Chief Engineer.
- Work with others to plan and coordinate the completion of work.
- Use power and hand tools and equipment in an efficient manner.
- Perform building maintenance tasks throughout the facility as needed.

Requirements

- 4th Class Power Engineer Certification.
- Candidates with maintenance background and experience will be given preference.
- Own vehicle required.
- Experience with ammonia refrigeration systems is an asset.
- Experience in a food processing industry is considered an asset.
- Must be safety conscious with a good safety record.
- Ability to work independently and co-operatively with the maintenance team.
- Must be available for overtime and weekend hours as required.
- Must be flexible to work a rotating shift schedule.

What we offer:

- A dynamic, collaborative, and inclusive work environment, where no two days are ever the same.
- The opportunity to grow your career and take on additional responsibilities.
- The opportunity to expand your skillset by working on new projects and initiatives.
- A competitive total rewards package which includes a competitive wage, group benefits (extended health, dental, short term disability, life insurance) and group RRSP.
- The opportunity to be mentored by leaders in the food manufacturing industry.
- Relocation assistance offered for out of province applicants willing to relocate to British Columbia.
